

## Bluewater #28

1675 State Road, Summerville, SC 29486

### PROJECT SUMMARY

Brunson Construction was selected as the general contractor for this new-build gas station and convenience store located at 1675 State Road near Summerville, South Carolina. The project involved complete site development, including underground fuel storage tank installation, canopy construction, and a full-service convenience store build-out.

### PROJECT TEAM

**Bobby Hass**  
Project Manager

**Fred Whittle**  
Bluewater Construction Manager

## PROJECT SPECS

- 8 auto fuel dispensers
- 4,104 sq ft fueling canopy
- 5,500 sq ft convenience store with custom Bistro kitchen
- 32,260 sq ft of heavy duty concrete paving
- Express car wash

## CLIENT TESTIMONIAL

*"Our company relies upon Brunson Construction for thorough analysis of building plans well before construction and to provide suggestions for value engineering changes in product or approach to reduce costs while maintaining performance standards.*

*Their project managers and job superintendents are diligent, anticipate challenges and potential logjams, and keep the construction on schedule or ahead, if possible.*

*Their positive and mutually respectful relationship with municipal inspectors is critically important to construction success.*

*Their approach to excellence stems from being developers of properties themselves in areas of the state not competing with our interests.*

*I am always pleased when Brunson is awarded our construction projects, as I know that we'll be operating sooner than otherwise and cash flowing thereby."*

**Fred Whittle**

Construction Manager, Bluewater
